Versatile clear water pump.

This Cromtech diesel-powered clear water pump is for general purpose water transfer and comes with electric start. Electric start allows an operator the simplicity of turning a key to start the pump. The model is suitable for transferring water from ponds, dams and water tanks quickly and efficiently.

The pump outputs a maximum of 833 litres of water per minute at a total head of 25m. It comes complete with nuts and tails included.

If this pump does not suit your requirements, we have a wide range of pumps you can view [here](#).

Our Cromtech products come standard with a one year warranty with Australia wide support and service network.
